PLANNING FOR MEMORIALS.

Dear Sisters of the Social Corner: The annual Memorial day of the American seldiers has recently been observed. seldiers has recently been operaru. Fowers have been given as tributes in their honor and trees have been planted as testimonials to live and grow, as silant and beautiful reminders. Many lent land beautiful reminders. Many stones of granite, or field boulders, have been unveiled for the first time this year, bearing the inscriptions to those whose names the pages of history will reverence. Those public tributes of respect and honor to those who sacrificed their all, their lives, for the benefit of jumanity, those observances mean much to living kindred. However, there are many others, who have gone on before whose ties were near and dear to us, and so especially we forgot them not, their memory, with flowers of the season. Probably mest of us find it inconvenient to visit the plot where we most desire to contribute our offerings. Many miles separate us, ill health or other good reasons may prevent us from doing those things. And if so, can we not have a next best? Those of us who have a space of ground around our homes can utilize a small spot to set one plant, or more, and regard that as a substitute. Is it not appropriate to select the fa-vorite flowers, that mother, father or others, were most fond of, and as we take care of these simple memorials, during the summer days are they not a reing the summer days are they not o re-minder that we are doing "something?" In those homes where a garden nlot is not available a window hox, or a pi-amas box, or a single flower not may carry out this idea. For my own per-sonal pleasure, and to carry out these suggestions. I am arranging a memorial flower bed in this way. On my front lawn I have a young shade tree. I cut a circular space about two feet from the tree use good feetilizer to mix with the tree, use good fertilizer to mix with the soil, plant white verbenias, white carry triff, and one double white gersnium. I choose all white flowers, as they were my mother's favorites. I enjoy a variety of plants and shrubs, around my home yard, which have been around my home yard, which have been

given me by some who no longer care for the blooms of earth. As I sense the perfume of the sweet pinks, I think often of a dear old lady friend who was nast her four score years, when she gave me a small bunch of these rootings.

The housekeeper should take this fact from her own garden, many miles away, to be transplanted, where now I enjoy them, feeling they are a memorial to her friendship. In other ways we may make use of memoria's if we choose to, or think of it. I have an old fashioned small mills pitcher, which belonged to my grand mother, and I like to nut flowers in that, especially for the dinin- table, and feel that is a remembrance to her, and how I who sent me carde in remembrance of my highelay anniversary. *FRUIT - A-TIVES" Made Complete
Cure of Stomach Trouble

Moultonville, Carroll Co., N. H. "An account I read about 'Fruita-tives' or Fruit Liver Tablets in one of our newspapers prompted me to try this remedy.

I was all run down and work was burdensome owing to Indigestion and Fullness, due to gas on my stomach which caused me to belch a good deal. My heart seemed to be affected.

It was two years ago that I was in this condition and began the use of 'Fruit-a-tives'. Even though the trouble had been of a few years standing, the use of 'Fruit-a-tives' proved the very remedy I required. I was freed of the Indigestion, which I attributed to my heart; and I can conscientiously recommend 'Fruita-tives' as a remedy of merit". Mrs. FRANK W. WALLACE.
